August 26, 2020

Dear Parents/Guardians

Monday night, the Bendle Board of Education approved plans to begin the school year on September 8th for all online learners. Staff will begin making contacts with students to provide orientation information during the week of August 31st.

Each building will have its’ own procedures for introducing students to teachers. The introduction to in-person learning will continue until September 21st, when we hope to have all in-person learning students attend for the full-day.

Parents opting for in-person learning will also be contacted by staff to begin attending orientation sessions in small numbers beginning the week of August 31st. By organizing students into smaller numbers, we hope to avoid any outbreaks of COVID-19 among staff and students.

Again, parents/students will be contacted by staff from their assigned buildings. Students will be required to wear masks during assigned times. Should you have further questions, please contact your child’s building office.

John Krolewski, Superintendent
Bendle Public Schools
