Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER), which provides key information on the 2018-19 educational progress for the BENDLE HIGH SCHOOL. The AER addresses the complex reporting information required by federal and state laws. The school’s report contains information about student assessment, accountability, and teacher quality. If you have any questions about the AER, please contact Mr. Brandon Chapman for assistance.

The AER is available for you to review electronically by visiting the following website: www.bendleschools.org, or you may obtain a copy through the principal’s office at your child’s school.

For the 2018-19 school year, schools were identified using definitions and labels as required in the Every Student Succeeds Act (ESSA). A Targeted Support and Improvement (TSI) school is one that has at least one underperforming student subgroup. An Additional Targeted Support (ATS) school is one that has a student subgroup performing at the same level as the lowest 5% of all schools in the state. A Comprehensive Support and Improvement (CSI) school is one whose performance is in the lowest 5% of all schools in the state or has a graduation rate at or below 67%. Some schools are not identified with any of these labels. In these cases, no label is given.

Our school has not been given one of these labels.

Bendle High School is committed to expectations for having all students become proficient in all subject areas. The school is committed to providing optimal learning experiences for all students. This is done through “dual enrollment,” distance learning, and blended learning opportunities. Bendle High School is also committed to eliminating learning gaps among students at all grade levels. Social work and counseling services, tutoring, and additional learning opportunities for student’s non-proficient in core content areas continue to be provided. Work also continues toward the implementation of a multi-tiered system of support intended to ensure all students achieve to the best of their abilities. Multiple formative assessments are used to monitor and develop alternative strategies specific to those students below grade level. Technology is integrated into instruction and assessment practices and research based programs and strategies are being used in all core content areas. The district provides staff with professional development opportunities intended to support teaching, data collection, and assessment practices in order to better address the needs of all students.

State law requires that we also report additional information.

1) PROCESS FOR ASSIGNING STUDENTS TO THE SCHOOL:

   Bendle High School is the only 9-12 building within the district. All students are assigned according to grade level, required classes, and electives. Student choice exists for dual enrollment, alternative education, distance learning, and on-line credit recovery.
